RECOMMENDATIONS FOR USE

- It is the responsibility of the end user and not the manufacturer to determine glove suitability for the intended use.
- These gloves resist cut but are not cut proof. Do not subject to high speed or serrated blades. Do not use near moving machines if there is a risk of entanglement.
- Storage: Gloves should be ideally stored in cool, dry conditions in original packaging and away from direct sunlight.
- Cleaning/Maintenance: Both new and used gloves should be thoroughly inspected before being worn to ensure no damage is present. Gloves should not be left in contaminated condition if reuse is intended in which case gloves should be cleaned as far as possible. If appropriate, decontamination may take place under lukewarm water using laundry soap and detergent. Don't use chlorine bleaches.
